RE: Water Filter Proposal

---

I'm talking with multiple lawyers about it and using their guidance. Happy to talk about it off line.

**Subject:** RE: Water Filter Proposal

I understand that the antimicrobial filter is the problem with the flow rate, but since we specifically asked for that feature in the RFP, won't we have a problem with removing it? Since we had so many protests and questions about the bid award, I am concerned.

Sue

**Subject:** Water Filter Proposal

Jim,

When do you think it you guys would have a proposal ready for a lead only filtration system with minimal pressure/flow rate impacts? Also I think I would like to take you up on the option to have you come down for a visit. It might be helpful for you to see the issues we are dealing with as we think through a final solution. When do you think you could come?
